## The Latest News from rYico

### Update on Centre Marembo appeal

Following a long search, the team at Centre Marembo have found a new temporary location in the Ramera district of Kigali after being served notice on their previous centre. Although it is slightly smaller than the old centre it is still large enough to accommodate all of the groups and classes. They have also found a new house closer to the centre for the 30 live-in boys.

Thank you to those of you that have raised funds to date. The Centre Marembo appeal thermometer is on its way up so we're that much closer to building our own centre!

### New funding for youth journal

Three years ago rYico was awarded funds from the World Bank to create a regular journal for young people as an accessible means of informing them about issues affecting them such as HIV/AIDS, youth rights and services etc.

Bottletop, a Brighton-based charity, has now provided a 3-year grant for rYico to continue the journal with a specific focus on sexual and reproductive health. Thank you to Bottletop for your support.
